IN-USE TESTS REPORT

B – 69447/9732/19

RELAX CBD ORIGINAL PILLOWCASE

submitted by

PRONEEM FRANCE

87 Boulevard de la Méditerranée
13015 Marseille – France

1.	Tests based on:	<ul style="list-style-type: none"> • Order of 10.12.2019, registered under no. B – 69447/9732/19. • Test samples provided by the Client. <div style="border: 1px solid black; background-color: #e0f0ff; padding: 5px; margin-top: 10px;"> <p>The responsibility for consistency of the declared product composition with that of the product samples submitted for testing is on the Client.</p> </div>
2.	Product description:	<p>Appearance: white, cotton zipped pillowcase treated with a parfume.</p> <p>Fragrance: pleasant.</p>
3.	Intended use:	<p>For sleeping purposes.</p>
4.	Purpose of the tests:	<p>Assessment of the product's relaxing effect.</p>
5.	Testing method:	<p>The in-use tests were carried out in accordance with the Laboratory's own Testing Procedure no. PB15/DA ed. 3 of 12.02.2013 on a specifically selected group of 20 voluntary testers (3 men and 17 women) under uncontrolled conditions – the <i>home panel</i>.</p> <p>Using the product under in-home conditions allowed for assessment of its relaxing properties.</p>
6.	Selection process of voluntary testers:	<div style="background-color: #e0f0ff; padding: 5px; margin-bottom: 10px;"> <p>The selection of voluntary testers was carried out in accordance with the ITA-TEST Laboratory Testing Procedure PB 01/DA ed. 2 of 12.02.2013.</p> </div> <p>For the purpose of conducting the in-use tests, the dermatologist has qualified a group of 20 voluntary testers aged 20 – 40. All testers declared stressing life and problems with sleeping. Moreover, 75% of testers main sleeping position was on the side, 30% on the stomach and 5% on the back.</p> <p>They all met the requirements for inclusion and signed a declaration of consent to informed participation. The testers were also informed about the purpose and method of testing, as well as possible unwanted side effects.</p> <p>The test participants were asked to use product during night sleep and were given no other specific instructions regarding the use of the product, under the assumption that properties and efficacy of the product should be tested under natural conditions where it would normally be used. Thus, the only factors influencing the results of testing could be age, genetically determined individual traits, lifestyle, environmental factors etc.</p>
7.	Testing method and procedure:	<div style="background-color: #e0f0ff; padding: 5px; margin-bottom: 10px;"> <p>I. IN-USE TESTS - in-home conditions (home panel)</p> </div> <p>Voluntary testers qualified by the dermatologist were each provided with one RELAX CBD ORIGINAL PILLOWCASE, along with a specially</p>

		<p>prepared questionnaire and were required to:</p> <ul style="list-style-type: none"> ➤ use the product once at night as a pillow case, ➤ use no other products of which the intended use is identical or similar to that of the tested product over the course of the testing, ➤ immediately terminate the use of the product in case of any undesirable symptoms occurring on the skin and report the negative symptoms to the dermatologist at „ITA-TEST” without delay; ➤ complete the questionnaire provided.
8.	Testing period:	<p>The in-use tests, followed by processing of the results were carried out between 02/12/2019 and 19/12/2019. The tests were completed by all the participants.</p>
